almaneo

Almaneo Inc.

# AlmaChat for people. Kinfri.AI for business.

AI services and systems company

Cold Code, Warm Soul

The problem

# Two barriers we take down

Talk beyond language. Work with AI without putting personal data at risk.

01

## The language barrier

Without a shared language, it is hard to become friends — or to work together.

→ AlmaChat

02

## The AI adoption barrier

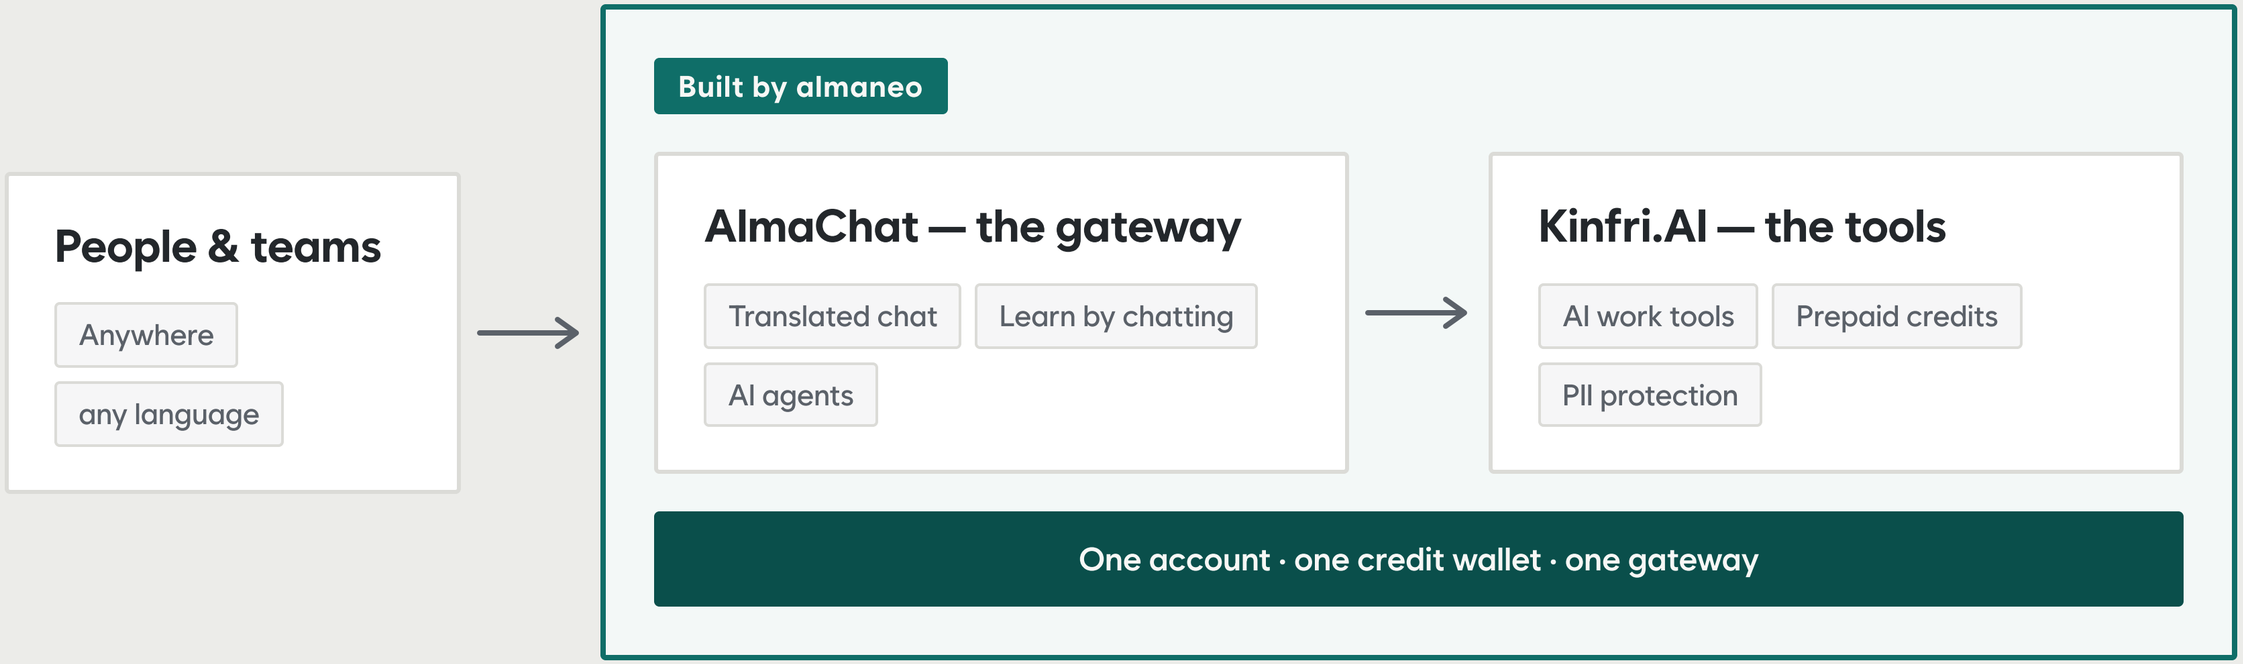

Personal data is a worry, per-seat dollar subscriptions add up, and the tools are scattered.

→ Kinfri.AI

How it fits

# One structure

Come in through AlmaChat. Get work done with Kinfri.AI.

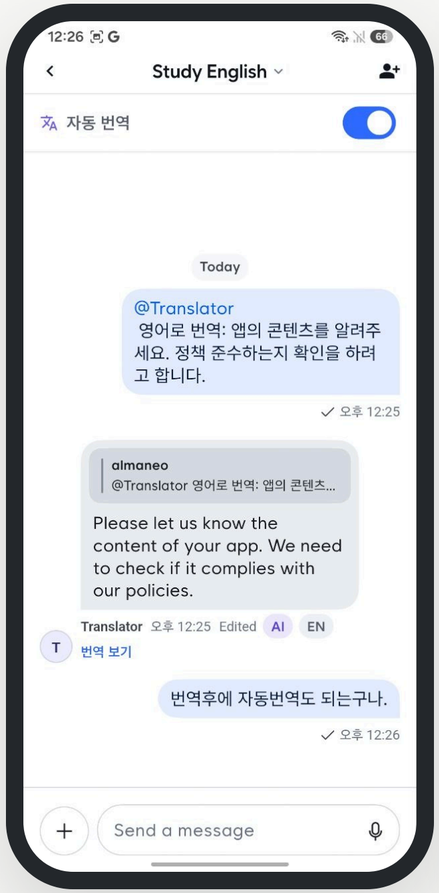

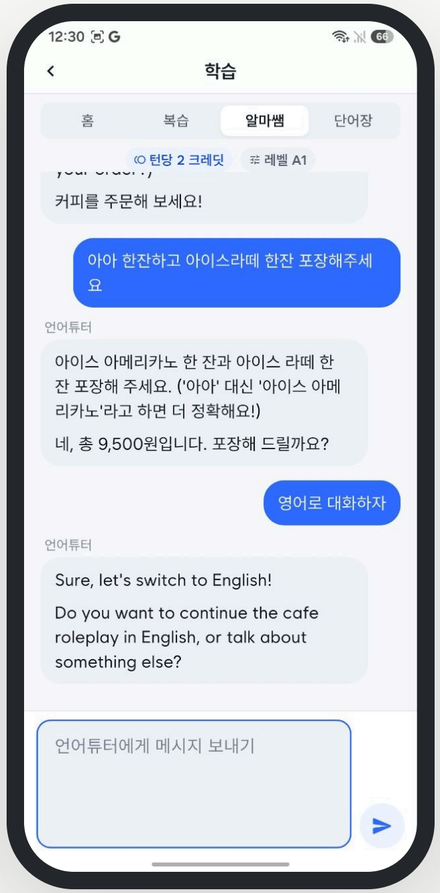

For people — AlmaChat

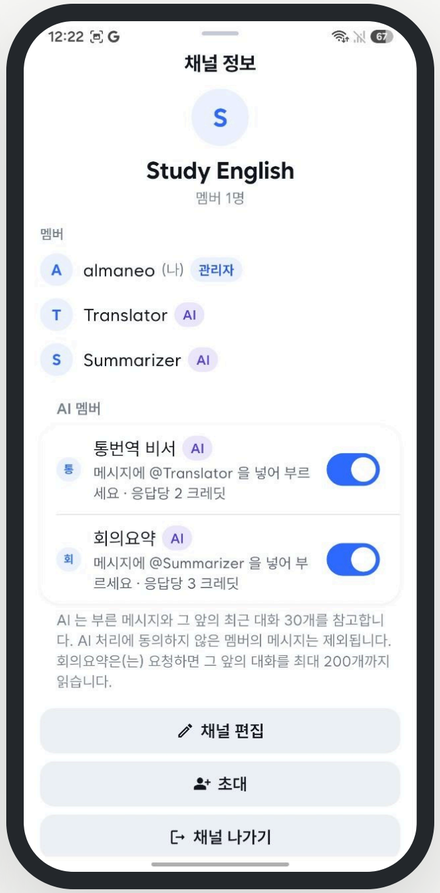

# Good friends, no borders.

A chat where language is no barrier — and the gateway to Kinfri.AI's AI agents.

- Auto-translated chat in 20 languages
- Study cards from your own chats · AlmaTutor, the language tutor
- AI members in channels: @Translator · @Summarizer
- On the web now · apps coming soon

For business — Kinfri.AI

# AI work tools platform for business

AI work tools for your company, paid with prepaid KRW credits — only for what you use.

01

## Ready-made work tools

Weekly reports, proposal decks, data reports, meeting prep — 5 live, 30 prepared.

As of 2026-10-11

02

## PII masking

Every request passes through Korean PII masking.

03

## Prepaid KRW credits

Top up from ₩10,000. No subscription — only what you use is deducted.

04

## Developer API

The same gateway, OpenAI-compatible

How it connects

# One account, one wallet, one gateway

Called from AlmaChat or used in Kinfri.AI, every AI request takes the same path.

01

## Account

One account for both AlmaChat and Kinfri.AI.

02

## Credit wallet

AI used for work is charged to your company's Kinfri.AI workspace wallet, in KRW.

03

## Gateway

Key check → PII masking → credit deduction → usage log → model, in that order.

04

## Personal data

Masks 5 kinds of Korean PII: ID, phone, email, card and account numbers. Data stays in Seoul.

Pricing

# Pricing at a glance

| Plan | How you pay | To start | Notes |
|---|---|---|---|
| **AlmaChat, personal** | Free · earn credits by watching ads | 5,000 credits on sign-up | 10 credits per ad (10 a day) |
| **AlmaChat, for work** | Company Kinfri.AI workspace wallet | Connect a workspace | Deducted from KRW credits |
| **Kinfri.AI** | Prepaid KRW credits · ₩0 subscription | From ₩10,000 · ₩1,000 on sign-up (after email verification) | Valid for 1 year · VAT extra |
| **Payment and refunds** | Card (up to ₩90,000 per top-up) · companies: bank deposit (from ₩100,000) | Full refund within 7 days | Tax invoices from the paid launch |

Tax invoices will be issued from the paid launch, planned for December 2026.

Custom builds

# We also build AI systems around your workflows

Built the way we build our own services — in code, handed over with docs. If it is not a fit, we say so first.

01

### Agent pilot

One workflow, one agent. From a free diagnosis to handover, at a fixed price.

02

### Partner track

The partner holds the license, we build — Microsoft Fabric and Azure, under the partner's brand.

03

### Built in code, handed over in docs

Scripts that are safe to re-run, plus runbooks and training at handover.

04

### If it is not a fit, we tell you

The fit assessment is free. If a project is not right, we suggest alternatives before any contract.

Roadmap

# What comes next

## Oct 2026 · now

AlmaChat on the web · 5 Kinfri.AI tools live

## Nov 2026

Kinfri.AI private beta

## Dec 2026

Paid launch · tax invoices begin

## Jan 2027

Public marketing launch

## Q1 2027

PowerPoint, Excel and HWP document tools

## Q2 2027 on

Voice · internal document search · developer partner payouts

Plans may change.
